Effective Date:		Date of Last Review: 12/2/91

After some discussion on whether outside groups should be permitted to use the church mailing list, the Board adopted the following policy:

“In order to preserve the privacy of our members, the church mailing list will not be given to, sold, or otherwise made available to outside organizations. It will be made available only for specifically Unitarian Universalist activities. Future church directories will specifically state that the church directory is for the use only of the church and its members.”
